Overview

About Us: Built on Grit, Grounded in Faith

Who We Are

We didn't start this company in a boardroom; we started it on the job site and over the dinner table. We are lifelong friends, construction workers, and husbands who saw a need for a cleaning service that works as hard as the people it serves. Having spent years in the trades, we know exactly how overwhelming a post-construction mess or a neglected workspace can be. We decided to team up because we wanted to help our community by doing the heavy lifting, allowing our neighbors to breathe easier in the spaces they live and work in.

Our Foundation

As a Christian-owned company, our business is built on a foundation of faith and service. We believe that hard work is a form of worship, and we approach every job with a servant's heart. Our values aren't just words on a page; they are the principles that guide how we treat your property and your family.

Goals

1. Our first priority is customer relationships, we genuinely value your thoughts, feedback, and concerns. Connect directly with ownership to have full control of your cleaning experience.
2. Our second goal is to strive ourselves on offering affordable cleaning without breaking the bank. Let us show you there's actually a company who understands and cares.

How it started

We've been through a lot together—from childhood scraped knees to adulting—but nothing shocked us more than seeing how much companies were charging for a "simple necessity." It felt like people were being asked to choose between their bank accounts and a clean bathroom.

We looked at each other and realized: **Cleanliness shouldn't be a luxury, and integrity shouldn't be an "add-on" service.**

We decided to stop complaining and start scrubbing. We traded our hobbies for mops and our weekends for floor wax, building a business founded on the radical idea that you can provide top-tier service without "price gouging" your neighbor.

Today, we service both homes and offices with the same friendship-tested values we grew up with: **Honesty, hard work, and the belief that everyone deserves a fresh start (and a fresh floor) at a fair price.**

Our Backgrounds

Jacob—I've spent six years in construction and rack installation, plus a year in aircraft maintenance and upholstery. In those industries, you have to give your best or you'll face huge problems. I've built my reputation on being a problem solver, not a problem creator!

Chance- I've been a Hardworking construction professional with 5 years of experience in fiber optic installation, warehouse operations, and quality control. I've worked in high intensity situations at heights on power poles while maintaining strict safety standards, supporting efficient workflows, and ensuring every job meets high-quality expectations. Reliable, detail-oriented, and committed to getting the job done right.
